

LUCE DI CARRARA MARMO

Technical Data Sheet - Protection and Maintenance

Date	14-04-2015
Material	Marmo, Travertino, Granito nero assoluto, Pietra Cardoso, Portofino.
Finish	Lucido – Opaco – Pelle – Water – Legno – Fibra – Sabbia
Collections	Bianco Luce – Cromoluca I – Cromoluca II – Materia Luce – Minima Luce
Technical features	Stone sensitive to acid attacks. Do not use acidic or highly alkaline (No limescaleremovers -,No Muriatic Acid, No Alcohol, No Ammonia, etc .)
Pre-treatment	Before laying it is recommended the application of protective Fila PW10 - pre-fixing efflorescence- blocking protector.

Washingafterlaying	Products	FILACLEANERneutraldetergent
	Equipment	Single-brush machine with white disc, liquid vacuum cleaner, flat brush, cloth.
	Procedure	Clean thoroughly, wet the surface and apply the solution of FILACLEANER evenly. Rub hard using a single-brush machine fitted with non-abrasive disc or flat brush with cloth. When this is done by hand (e.g. on a wall), with a flat brush and cloth, rinse often in the washing solution. Rinse thoroughly with clean water, if necessary using a liquid vacuum cleaner.
	Coverage	FILACLEANER - 1l for 50m ² - diluted 1:30

Protection	Products	FILAMP90 Eco Plus -natural-effect, water-base stain protector
	Equipment	Paintbrush or sponge orVello
	Procedure	For polished finish: apply one even coat of FILA MP90 ECO PLUS on dry clean surfaces using a brush or fleece pad. Leave for 10 minutes, and then use a cloth or kitchen paper soaked in the product to make sure the application is uniform and remove any unabsorbed excess. Rub it gently in to ensure it penetrates and remove any excess.
	Coverage	FILAMP90 Eco Plus - 1 Lt. for 20-30 mq

Note : Protectors do not protect surfaces from acid substances.

Maintenance	Products	FILACLEANER -neutraldetergent
	Equipment	Cloth or mop, scrubber-dryer machine for large areas.
	Procedure	For everyday cleaning we recommend washing with FILACLEANER diluted in water (1:200) without rinsing.
	Coverage	FILACLEANER -1l for 1500m ² when diluted 1:200

Maintenance Tops	Products	FILAREFRESH – protective detergent for tops
	Equipment	Soft dry cloth
	Procedure	Spray FILAREFRESH onto the surface and wipe with a soft dry cloth, rubbing the surface until it is completely dry. Do notrinse.
Extraordinary Maintenance For stains	Products	FILANOSPOT : Stain removing spray–greasy and oil stain remover FILASR95 : Stain remover-coloured organic stain remover (wine, etc.)
	Equipment	Rag, soft cloth, brush and sponge
	Procedure	Check instructions given on the packaging and technical info sheet.

The instructions for use and application procedures recommended for these products are the outcome of careful laboratory testing. However, some factors are beyond our control: the condition of the surface before treatment, the characteristics/finish of particularly rare or non-specified material, environmental conditions and user skills. We therefore recommend an on-site preliminary test before proceeding. Fila always guarantees the quality of its products, but we accept no liability for their improper use
